

## Healthx Feature - Single Sign-On

### Discover the Solution to Employee Engagement with Healthx Single Sign-On

Are you struggling to get your employees engaged in their benefits? Healthx can help take your benefits portal to the next level with Single Sign-On (SSO) capabilities. SSO lets employees login one portal, utilizing a single ID and password, and access all HR materials, benefit information, and company communications.

We all recognize the frustrations that employees encounter when they try to access various systems and applications, but can't remember where to go or which password applies. This creates a huge barrier to engagement, unnecessary work for you, and has unfortunately become today's expected reality.

### Create a Perfect World

In a perfect world, employees would have the ability to access carrier sites, decision tools, payroll information, FSA, wellness applications, enrollment, training videos, etc. all on one site that requires only one ID and password for complete access.

### Get Connected

Using SSO, Healthx can help you connect all of your systems and applications so you get the results you expect from your various efforts and investments. Think of all the complex components that make up your environment, and imagine the simplicity of having them all connected.

- Health benefit plans and coverage
- Flexible Spending Account information

Looking forward to that perfect portal experience to drive engagement? Healthx Single Sign-On (SSO) is a step in the right direction! Find out more at [www.healthx.com](http://www.healthx.com).

- Payroll information
- 401k information
- Wellness programs
- Online enrollment
- And much more

Looking forward to that perfect portal experience to drive engagement? Healthx Single Sign-On (SSO) is a step in the right direction! Find out more at [www.healthx.com](http://www.healthx.com).

## Connect Third Party Vendor Applications

SSO enables employers to create a single point of access to all HR and benefits information. SSO allows employers to connect all of their various third party vendors on a single portal, creating a seamless user experience. Users login only once; and credentials are immediately and securely authenticated and shared among the various vendors, eliminating the need to re-authenticate between applications.

Healthx can also connect with company intranets, HRIS systems, and other disparate systems, creating a unique environment designed specifically for you and your needs.

Healthx develops and manages the most widely adopted online portals and applications for the healthcare and human resources markets.
