

Healthx Feature - Report Distribution

Customized Reports at Your Fingertips

The Healthx platform offers automated Report Distribution, a process that allows you to easily and securely distribute a wide variety of monthly reports, invoices, and other content in virtually any format you desire. Reports from your claims or other systems are stored in a holding directory and transmitted via a secure, automated FTP connection, thus protecting Personal Health Information (PHI) in a HIPAA-compliant manner. The reports are then made accessible only to authorized individuals designated by you.

Discover Powerful Advantages Such As:

- Significant savings from print and postage costs
- Reduces the work involved with reports and bill distribution
- Improves customer satisfaction
- Employs a secure and HIPAA-compliant connection
- Increases utilization and adoption when integrated with the Healthx Platform

A better way to help you achieve your company goals, drive business forward, and reduce your costs at the same time. Find out more at www.healthx.com.

Healthx develops and manages the most widely adopted online portals and applications for the healthcare market.
