## Healthx Platform Core Applications - Report Distribution

### Customized Reports at Your Fingertips

The Healthx Platform offers automated Report Distribution, a process that allows you to easily and securely distribute a wide variety of monthly reports, invoices and other content in virtually any format you desire. Reports from your claims or other systems stored in a holding directory, and then transmitted via a secure, automated FTP connection, thus protecting PHI in a HIPAA compliant manner. The reports and information are then viewed by only the individuals you have authorized to view them.

Discover powerful advantages such as:

- Significant savings from printed and postage costs
- Reduced manpower associated with reports and bill distribution
- Improved customer satisfaction
- Totally secure and HIPAA compliant
- Increased utilization and adoption when integrated with the Healthx Platform

What better way to help you achieve your company goals and drive business forward and reduce your costs at the same time.

**Core Applications are built into the Healthx Platform. They are ready to go from day one. Find out about the Healthx Platform Core Applications in the Healthx Application Marketplace at [www.healthx.com](http://www.healthx.com).**
