

Healthx Application Marketplace Enrollment Solutions from Empowered Benefits

The Partnership

Healthx and Empowered Benefits formed a powerful alliance. Both companies are pioneers and leaders in the employee benefits technology industry. The Empowered/Healthx platform is uniquely able to grow and evolve as the Employee Benefits industry evolves.

New Solutions

The Empowered-Healthx platform makes it easy for an employee to compare plan designs, estimate health expenses, and enroll in any product that their employer makes available. The solution offers account display, claims display, online enrollment, an impressive variety of communications tools, health research information, and decision support tools in a secure and personalized benefits portal. The Empowered-Healthx alliance has developed sophisticated expense modeling tools and comparison tools that enable employees to make informed decisions based on their actual plan designs.

What products do we enroll?

- Medical
- Dental
- Vision
- FSA
- All supplemental and voluntary products such as LTD, supp life etc.

How Our Enrollment Solution Can Help You Be More Efficient.

- HR staff time is reduced (less paperwork, less phone calls – everything electronic).
- HR efficiency and productivity are increased.
- Employee satisfaction with HR climbs.
- Rules based enrollment allows employees to enroll in only the products and tiers for which they are eligible.

- Enrollment errors and miscommunications are decreased.
- Employees receive one-stop shopping – anything they need related to benefits is found in one location.
- Less internal technology resources are needed due to no upgrades or modifications to install in future years.
- Resource or technology disruptions are at a minimum when you decide to implement new employee technology, change carriers, or design new employee incentive, communication, or assistance programs.

How long does it take to implement your solution?

Implementation is typically 60 to 90 days depending on number of feeds and customizations.
