

Healthx Integrated Partners Laboratory Testing from Laboratory Corporation of America

Hospitals routinely receive 200-300% of contracted commercial laboratory rates for the same outpatient testing services. Outpatient hospital testing accounts for less than 10% of procedure volume but nearly 33% of the total lab dollars.

Gain Access to the Highest Quality Lab Services at Below Market Costs

Recognized for innovation, quality, and customer convenience, LabCorp delivers timely, accurate results for improved patient care. Labcorp gives patients access to high quality laboratory services that are quicker than typical hospital labs and are offered at a much lower cost.

Benefits of Being a Labcorp Customer

- Provides access to more than 1,650 patient service centers where more than 1,100,000 tests are performed daily.
- With a workforce of more than 26,000 LabCorp is the largest laboratory network in the nation.
- At the core of LabCorp's approach are its specialized laboratories. Each laboratory has a distinctive, long-standing reputation for innovation and quality in its respective disciplines.

With the Healthx OpenX platform, companies can educate members on this new lab benefit and potential savings on their current benefits site. One single-sign on gets them all the information they need. This program is based on cost-efficiencies and is offered at no cost to the employer.

HERE'S HOW IT WORKS

- Member needs lab work performed
- Member/provider calls to schedule lab procedure
- Labcorp finds closest center and schedules procedure
- Patient has lab work completed
- Employer realizes significant cost savings
